The SWISS Foundation for Innovation and Training in Surgery (SFITS) has the pleasure to organise for the third time, after the success of recent years, the course on Paediatric Minimally Invasive Surgery and Urology.

The minimally invasive approach is becoming the standard for a growing number of procedures in all fields of paediatric surgery. But where can we start getting into them?

By being introduced to the specific theory, by being exposed to standardized operations in a simulative real-time setting, by being guided by experts in the field, by having a safety-belt during our first steps!

We are happy to offer you the opportunity to train on the avian model which we developped for neonatal MIS training and published recently.

We are offering this two-day course in the unique facilities provided by the SFITS, allowing surgeons of all levels to benefit from this formal theoretical teaching, but most importantly to have the opportunity to exercise on a wide range of carefully selected models, while exchanging and discussing operative techniques with internationally recognized

Welcome to the Paediatric Minimally Invasive Surgery and Urology course!

> Prof. Barbara Wildhaber Paediatric Surgeon

¹ Zimmermann, P., Wiseman, A.X., Sanchez, O. et al. The avian model: a novel and cost-effective animal tissue model for training in neonatal laparoscopic surgery. J Ped Endosc Surg 1, 99–105 (2019).

Course description

Theoretical & hands-on course, aimed at junior and senior trainees

Day 1

is aimed at junior trainees, offering up to date teaching by experts on the physiological particularities of laparoscopy in children, pain management, but also technical aspects covering from the fine tunings of the stack to the basics of laparoscopy ergonomics. During the day 5 hours of hands-on exercices will follow with a view to improving laparoscopic knotting, suturing and dissection, with the help of animal models. The highlight of the day is the new avian model proposing adapted training opportunity to juniors, as well as to advanced trainees.

Date

23-24 août 2021

- Two day hands-on course for pediatric surgeons on cadaveric animal models including the new avian model
- Full equipment in brand new surgical training center
- Multimedia-learning with training videos during hands-on practice

Day 2

 is a laparoscopy technique masterclass for senior trainees and will entail two half-days of handson practice on animal models, with short video presentations, and high tutor-participant ratio.

Participation fees

including lunches and dinner

Day 1: CHF 450 - BASIC

Day 2: CHF 500 - ADVANCED

-10% for EUPSA members

Registration

Please book your participation via the SFITS web application:

Go to

https://calendar.sfits.ch

or scan QR code

Alternatively, you can send your application request to inscription@sfits.ch with the following information:

- Title of the course:
 Pediatric surgery 23-24 août 2021
- Name, phone, title, hospital
 Please note the number of places is limited and registration will be taken in order of receipt.

Contact for more info: inscription@sfits.ch

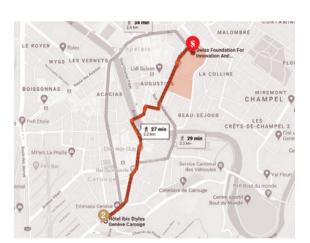

Venue

SFITS SWISS Foundation for Innovation and Training in Surgery

Rue Gabrielle-Perret-Gentil 4, 1205 Geneva +41 22 322 9100

Hotel recommandations

not included in the course fees

ibis Styles Genève Carouge Hotel Route De Saint Julien 3, 1227 Carouge

Room price: CHF 149 - single

- CHF 169 double occupancy
- (Breakfast included for both)

This special offer can be applied with the following codes: Company name: SFITS, Company code: SCP1710594, Access code: SF327CH797.
