Temporal bone beginner course

from virtual over dry
to wet specimens

OTORHINOLARYNGOLOGY

Geneva, Switzerland, 24-25 February 2022

Director
Prof Pascal Senn

Welcome

Prof Pascal Senn

Course Director

Dear Colleagues,

It is my pleasure to cordially invite you to the first edition of the Geneva temporal bone beginner course. The course is tailored to the needs of young ORL surgeons beginning with temporal bone surgery or a specific interest in advanced simulator training tools in this context.

The course will take place at the Swiss Foundation for Innovation and Training in Surgery (SFITS) in Geneva on February 24 and 25, 2022. Located on the campus of the University hospital of Geneva, the SFITS is a training center dedicated to innovative teaching and training formats and is fully equipped meeting the highest standards available today.

It is my honor to have a Danish ORL delegation headed by Prof. Mads Sorensen and Dr. Steven Andersen (Copenhagen) who not only have developed the Visible Ear Simulator and a dedicated national course in Denmark, but also methods to objectively measure the learning effects and didactic outcome of simulation-based training. In addition, it is my honor to announce the three experienced otologists Prof. Gunesh Rajan (Lucerne), Dr. Mercy George (Lausanne) and PD Dr Nils Guinand (Geneva) as faculty members of the course.

The Geneva course will feature simulation-based training on virtual and 3D-printed temporal bone models on day 1 followed by a real cadaveric temporal bone surgery on day 2. The course will be 98% hands-on, with minimal theoretical content allowing the participant to focus on skills. The theoretical content needed will be offered online before the course, allowing you to prepare ahead and to enjoy practical training at max during the course.

I am looking forward to this exiting course and hope to welcome you here in Geneva.

Best regards

Prof Dr. med.
Pascal Senn

Course description

24-25 February 2022

Audience

- Max 16 people

Summary

- 2 days of practical courses on simulation and on anatomical specimens

Language

- English

Pre-course requirement

1 e-learning module

Objectives

- Temporal bone anatomy
- Basic surgical techniques in otology
- Basics on simulation-based ear surgery training

Accreditation (in progress)

- ISFM
- UEMS
- Ethical Medtech

SFITS - SWISS Foundation for Innovation and Training in Surgery

1 Rue Gabrielle-Perret-Gentil 4
1205 Geneva, SWITZERLAND
+41 22 322 9100 | www.sfits.ch

Accommodation recommendation

- not included in the registration fees

2 **ibis Styles Genève Carouge Hotel**
Route De Saint Julien 3, 1227 Carouge

- Please mention the SFITS and the name of course when booking your room.

Program

Thursday 24.02 **Practical workshop day on simulators & dry bones**

8:30	Welcome coffee / registration
8:45	Course introduction
9:00-9:30	Basics of temporal bone drilling
9:30-12:30	Simulator & 3D printed bone workshop Part 1
12:30-13:30	Lunch
13:30-16:30	Simulator & 3D printed bone workshop Part 2
16:30-17:00	Debrief (auto-évaluation / group discussion)

Friday 25.02 **Practical workshop day on anatomical specimens**

8:30	Welcome coffee / registration
8:45	Course introduction
9:00-9:30	Soft tissue approaches
9:30-12:30	Anatomical Temporal Bone dissection Part 1
12:30-13:30	Lunch
13:30-16:30	Anatomical Temporal Bone dissection Part 2
16:30-17:00	Debrief & Certification

Registration

Price of the course	CHF 2'000
---------------------	------------------

Please book your participation via the SFITS Calendar web application:

Go to

<https://calendar.sfits.ch>

or scan QR code

Alternatively, please send an email to **inscription@sfits.ch** with the following information:

- Title of the course:
Temporal bone beginner course 2022
- Full Name
- Phone number
- Title, Hospital, City, Country

Registration deadline is February 9, 2022

For further information, please contact:
