

SWISS FOUNDATION FOR INNOVATION
AND TRAINING IN SURGERY

www.sfits.ch

in |  | 

CENTER OF EXCELLENCE
for Innovation, Training and
Research in Surgery

ADVANCE THE EDUCATION

of surgeons and interventional
room professionals

**SPONSORING
OPPORTUNITIES**

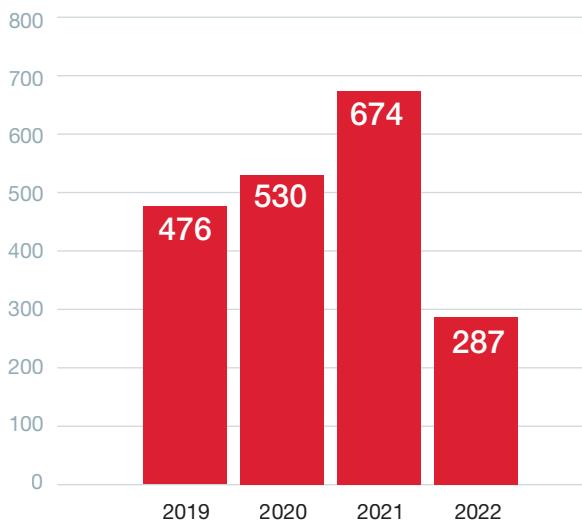

THE SFITS

- We host training sessions for surgeons, anesthetists, scrub nurses, OR assistants, technicians, radiologists and medical students.

+4'000

participations a year (all combined)

- At the SFITS, surgeons and OR professionals practice safely in almost real conditions, using the same infrastructure, instrumentation and equipment as in an operating theater.

▲ Number of training sessions par year

no patient risk

adapted surgical environment

immersive learning experiences

5-star training center

multidisciplinary ecosystem

safety, efficiency, and trust

Training

Improve surgical and interventional practice by offering continuous training to all professionals working in operating rooms

Exchange

Serve as a platform for interdisciplinary exchange between teachers, researchers and engineers

OUR MISSION

Innovation

Foster the emergence of innovative ideas by bringing the medical and industrial worlds together

Research

Host research projects and support the development of new interventional and surgical techniques and technologies

WE DO

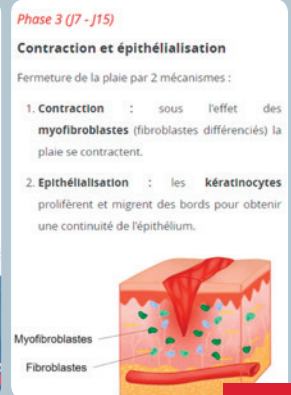

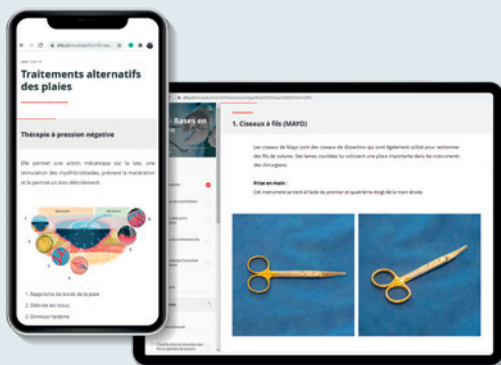

FACE TO FACE TRAINING SESSIONS

Hands-on and practical workshops
in almost real conditions and
in a totally controlled environment

WE DO

E-LEARNING

<https://www.sfits.ch/e-learning/>

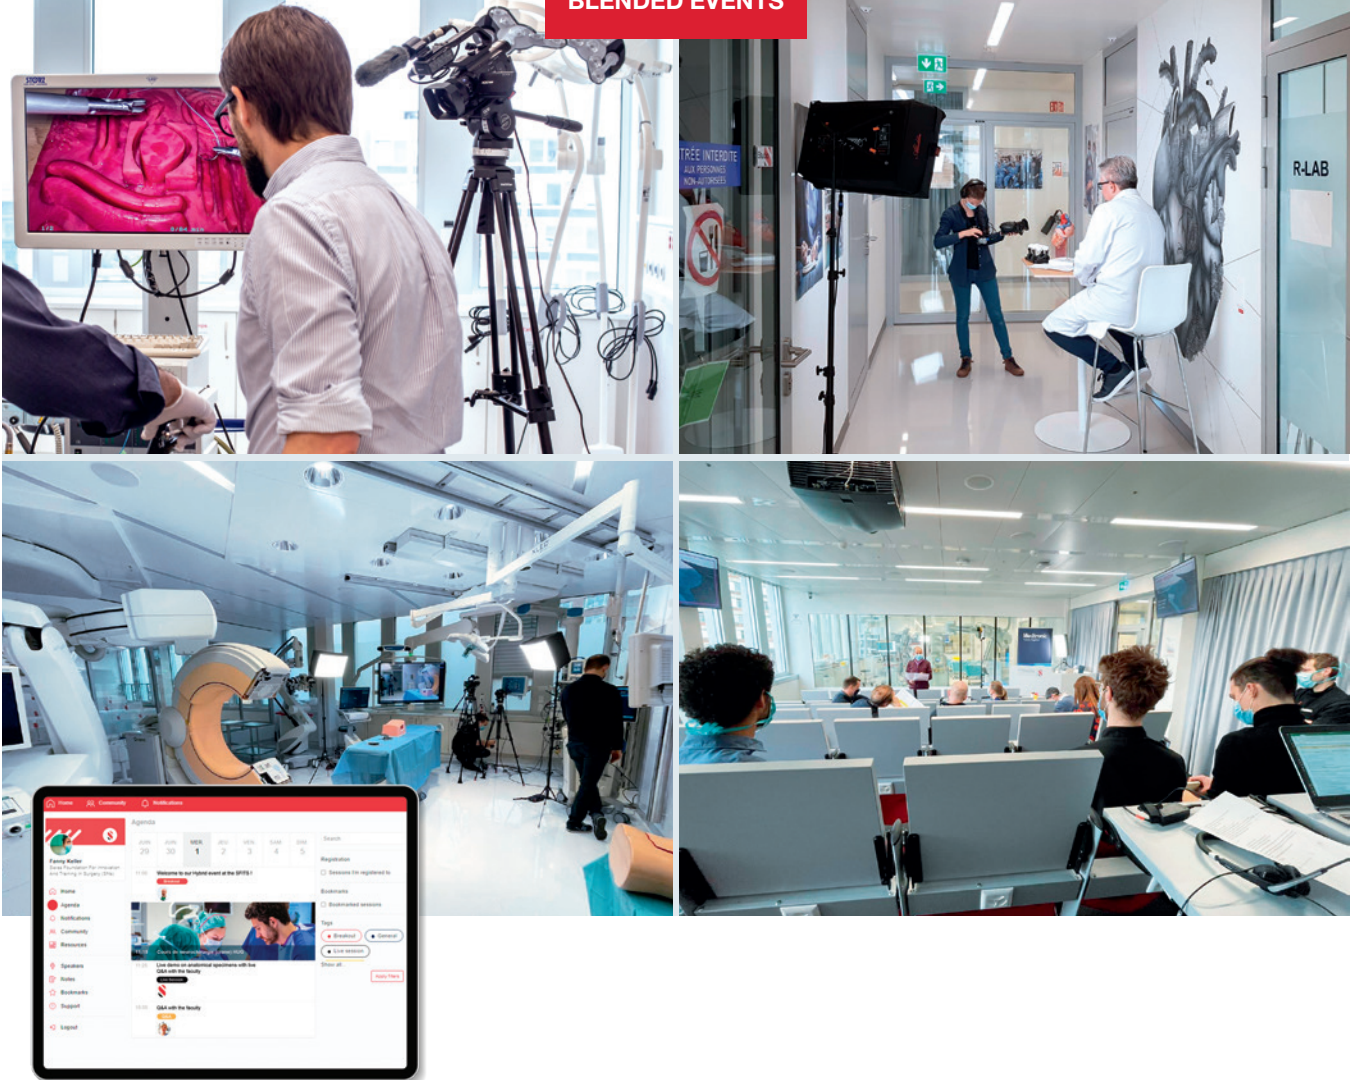

SELF-TRAINING

Interactive online courses,
mixing theoretical components, instructional
videos and self-evaluation tests

WE DO

BLENDED EVENTS

Immersive and interactive
live events, broadcasting live theoretical
courses, live cases from the OR room or
live interventions from a wetlab

WHY

Choosing the SFITS

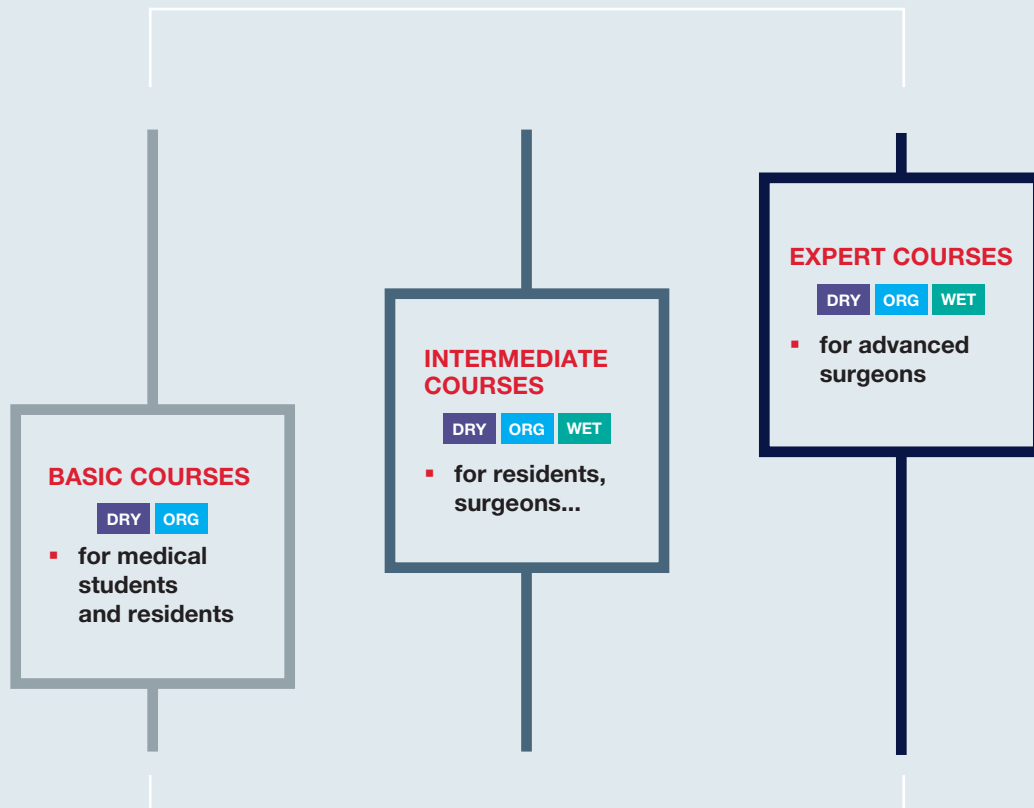

- Organize your courses with the support of a renown center of excellence in surgery
- Benefit from ideal conditions to showcase your equipment
- Safely practice on anatomical specimens or animal parts
- Teach and train in the same setting as in an operating room
- Have a direct access to the right audience
- Invite your trainees in a five-star infrastructure: luminous, modern, clean, adapted and safe

Sponsoring surgical training

- Strengthen the visibility and the authority of your brand
- Build a strong relationship with the surgical and interventional professionals
- Teach surgeons how to use your equipment in almost real conditions (with no patient risk)
- Provide step-by-step user guidelines depending on your audience
- Promote your equipment by presenting surgical techniques in real-time
- Establish your brand as the leading brand in your field

WHAT WE OFFER

WET

Workshop on anatomical specimens

DRY

Practical workshop on synthetic material

ORG

Practical workshop on organic material

SPONSORSHIP OPPORTUNITIES

Single-shot sponsoring

Financial sponsoring, per course day

- DRY** ■ Sessions on synthetic models or on simulators
- ORG** ■ Sessions on organic parts
- WET** ■ Sessions on anatomical specimens

Sponsoring in kind

- to be adapted to the course

Annual sponsoring

- Sponsoring (financial and in kind) of sessions hosted at the SFITS
- Conception and delivery of private and exclusive courses to showcase your equipment and build strong relationship with surgeons
- Creation of e-learning modules (showcasing your equipment)
- Translation of e-learning modules
- Visibility during courses

Contact us to discuss any specific sponsoring opportunities
