Geneva University
Hospitals HUG
Geneva, Switzerland

Dear Colleagues,

I am delighted to invite you to the 25th Advanced Course in Proctology and Pelvic Floor Disorder from 21 to 24 June 2022. It is traditionally organized by the Geneva University Hospitals.

After 2 years of Covid pandemic, we are more than happy to propose you a very interesting program with a renown local and international faculty. It is the only swiss course on this topic and one of the few European one.

As you know, proctological diseases are the most frequent after dental diseases. This 4-day course will be combining face to face lectures with live surgeries. The program will be interactive with case studies, demos, presentations of techniques, discussions, difficult case presentations, debriefs and self-report evaluation.

This year, it will be hosted for the second time by the SWISS Foundation for Innovation and Training in Surgery (SFITS), a multidisciplinary

training and research platform designed to simulate almost real conditions and provide a secured environment to professionals working in OR.

At the end of the course, every participant will receive a certificate.

On behalf of our team and our partners, we look forward to welcoming you in Geneva.

Professor Frédéric Ris

Registration

Please book your participation via the SFITS web application:

Go to

<https://calendar.sfits.ch>

or scan QR code

Or alternatively send an email to inscription@sfits.ch with the following information

- Title of the course:
Advanced course in Coloproctology
(June 2022)
- Name, phone, title, hospital

**Registration limited to 40 participants.
Register early to secure your seat!**

Participation fees

- Include materials, daily lunches and coffee breaks

CHF 800 (4-day program)

- Possibility to register to one single day.
Please send an email to inscription@sfits.ch

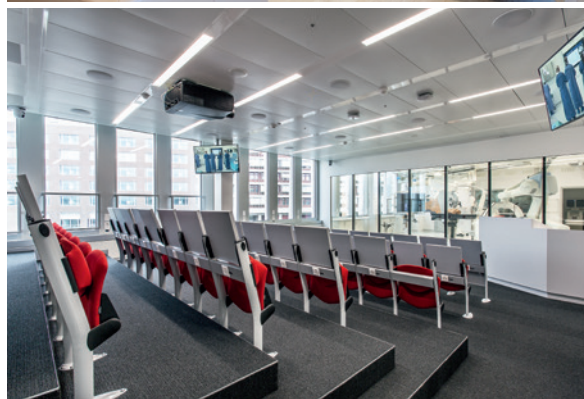

**Priority will be given to participants
registering to all 4 days.**

Program

TUESDAY 21 JUNE

		Speakers	Moderators
09:00 - 09:20	Welcome	F. Ris C. Toso	B. Roche F. Ris
09:20 - 09:50	Anatomy and embriology	B. Roche	
09:50 - 10:00	Medical History	F. Ris	
10:00 - 10:20	Clinical examination	F. Ris	
10:20 - 10:50	Investigations	G. Adler	
10:50 - 11:20	Pause		
11:20 - 11:50	Physiology	J. Robert	B. Roche
11:50 - 12:20	Endoanal and perineal ultrasound	A. Scarpa	
12:20 - 12:45	Discussion	Faculty	
12:45 - 14:00	Lunch		
14:00 - 14:30	My eyes, my finger, my echo	B. Roche	F. Ris
14:30 - 15:00	HPV-IST	A. Sgroi	
15:00 - 15:20	How to manage anal warts, AIN	A. Sgroi	
15:20 - 15:50	Pause		
15:50 - 16:30	Oncological management of anal cancer	M-L. Amram	F. Ris
16:30 - 17:10	Rectal cancer and TaTME	D. Hahnloser	
17:10 - 17:30	Fluorescence imaging in coloproctology	F. Ris	

WEDNESDAY 22 JUNE

08:30 - 13:00	LIVE SURGERY (upon availability*) with intermede video session	F. Ris	R. Scarpa
	Sphincteroplasty	E. Liot	R. Chautems
	Anal fistula and mucosal flap		
	Fistulectomy with mucosal flap		
	Posterior Colporraphy		
13:00 - 14:00	Lunch		
14:00 - 14:30	Hemorrhoids, anatomy and management	R. Chautems	R. Scarpa
14:30 - 15:00	Anal fissure	R. Chautems	
15:00 - 15:30	Foreign body management	R. Scarpa	
15:30 - 16:00	Pause		
16:00 - 16:30	Proctologic dermatology	P. Onody	F. Ris
16:30 - 17:00	A danger for my perineum	R. Chautems	
17:00 - 17:30	Discussion, Difficult case presentation faculty	Faculty	

* live surgery cases could be modified according to patients availability

THURSDAY 23 JUNE

		Speakers	Moderators
09:00 - 09:10	Perineal anatomy	G. Zufferey	F. Ris
09:10 - 09:40	Management of rectoceles	G. Zufferey	
09:40 - 10:10	Ventral mesh rectopexy and biologic mesh	G. Meurette	
10:10 - 10:40	Surgical thought on Constipation	G. Zufferey	
10:40 - 11:10	Pause		
11:10 - 11:40	Management of pilonidal sinus disease	A. Sgroi	
11:40 - 12:10	Karydakís approach for pilonidal disease, flops	G. Meurette	
12:10 - 13:00	Robotic repair of a perineal prolapse	G. Meurette	
13:00 - 14:00	Lunch		
14:00 - 14:30	Perineal and abdominal crohn's disease	M. Carvello	N. Buchs
14:30 - 15:00	Medical therapy for IBD Crohn or UC	M. Girardin	
15:00 - 15:30	RCH Surgical strategies	M. Carvello	
15:30 - 15:45	Pause		
15:45 - 16:15	Abcess and fistula	F. Ris	
16:15 - 17:00	Ambulatory surgery propofol vs hypnosis	R. Scarpa	
17:00 - 17:15	Virtual reality and local anesthesia	E. Liot	
17:15 - 18:00	Difficult case presentation	Faculty	
19:30 - 23:30	Party dinner		

FRIDAY 24 JUNE

08:30 - 13:00	LIVE SURGERY (upon availability*) with intermede video session		
08:30 - 09:00	Hemorrhoid operation		
09:00 - 09:30	Local aneesthesia technique	E. Liot	F. Ris
09:30 - 13:00	Operations in local anesthesia or ambulatory surgery	E. Liot	R. Scarpa
	Puborectalis repair		
	Anal fistula and mucosal flap		
	Pilonidal cyst excision		
	Milligan Morgan		
Between the operations	Gracilis flap for rectovaginal fistula	Q. Denost	
Between the operations	Radiofrequency a new kid on the block for proctology	Faculty	
13:00 - 14:00	Lunch		
14:00 - 14:30	Complex perineum and anal incontinence	B. Roche	F. Ris
14:30 - 15:00	Sphincter repair still on the go?	B. Roche	F. Ris
15:00 - 15:15	Pause	J. Robert	
15:15 - 15:45	Conservative therapy of incontinence	J. Robert	
15:45 - 16:15	Neuromodulation	E. Liot - J. Robert	
16:15 - 16:45	Perineal Pain	B. Roche	
16:45 - 17:00	Conclusions	F. Ris	
17:00 - 17:15	Certification and end of the course	Faculty	

* live surgery cases could be modified according to patients availability
