Welcome

Dear Colleagues,

We are delighted to invite you to the third edition of the Spinal Surgery Course “From the mountains to the sea, from Geneva to Naples, from occiput to ilium”, endorsed by the Swiss Society of Neurosurgery (SSNS) and the Italian Society of Neurosurgery (SINCH).

The Course is addressed to advanced residents in Neurosurgery and Orthopedic Surgery. It will be held in two entirely different, yet equally beautiful and interesting cities, Geneva and Naples, which are linked by a long tradition of surgeons’ exchange. The Italian creativity and genius will be mixed with the Swiss efficiency and quality for a successful event!

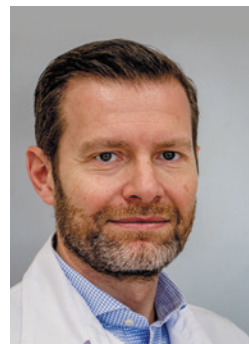

In Geneva, we will cover the occipito-cervical pathologies, including both arthroplasty and fusion procedures. Then we will be transferred together by plane to Naples, where we will focus on the thoraco-lumbar spine and iliac fixation.

The most advanced technologies in the field of spinal surgery, from robotics to exoscopes to modern spinal implants, will be available during the hands-on workshops at two amazing wet labs, the SFITS (SWISS Foundation for Innovation and Training in Surgery) and the Centre of Biotechnologies at AORN Cardarelli Hospitals.

On behalf of our team and our partners, we hope to welcome you to this fruitful and inspiring hands-on course.

We look forward to seeing you in Geneva and Naples and working with you.
