Geneva, Switzerland, 05-08 February 2024

Course director

Prof. Frédéric Ris

WELCOME

**Prof.
Frédéric Ris**

Proctology unit
Service of visceral
surgery
Geneva University
Hospitals HUG
Geneva, Switzerland

Dear Colleagues,

I am delighted to invite you to the 27th Advanced Course in Proctology and Pelvic Floor Disorder from 05 to 08 February 2024.

I will host this edition with a renown local and international faculty. It is the only Swiss course on this topic and one of the few in Europe.

As you know, proctologic diseases are the most frequent after dental diseases. This 4-day course will be combining face to face with delayed live surgeries during lectures. The program will be interactive with case studies, demos, presentations of techniques, discussions, difficult case presentations, debriefs and self-report evaluation.

Traditionnally organized by the Geneva University Hospitals, it will be hosted by the SWISS Foundation for Innovation and Training in Surgery (SFITS), a multidisciplinary training and research platform designed to simulate almost real conditions and provide a secured environment to professionals working in OR.

At the end of the course, every participant will receive a certificate.

On behalf of our team and our partners, we look forward to welcoming you in Geneva.

Professor Frédéric Ris

PROGRAM

MONDAY 05 FEBRUARY / Pelvic floor

Guests: P.A. Lehur, B. Roche / **Moderators:** G. Meurette, R. Chautems, G. Zufferey

08:30 - 09:30	Anatomy and embryology	B. Roche
09:30 - 10:30	Clinical examination and history sharing experience*	E. Liot F. Ris G. Meurette
